Subject: Contract for School District Virtual Instruction Program (Interdistrict Agreement – Volusia County)

In accordance with Florida Statute 1002.415, 1002.37 and House Bill 7067, beginning with the 2011-2012 school year, each school district shall provide eligible K-12 students within its boundaries three options for participating in a virtual instruction program. The program makes instruction available to students using online and distance learning technology in the nontraditional classroom.

To provide the students of Volusia County with a variety of learning opportunities and to support enrollment in our district-led virtual program, Pasco eSchool requests approval for a contract to begin offering virtual instruction to the following school district:

- Volusia County Public Schools (Fort Myers, FL)

Under this arrangement, eligible students in Volusia will have the option to select Pasco eSchool as a school of instruction for virtual curriculum. Volusia County will pay the District School Board of Pasco County a fee of \$3995 per student to provide virtual instruction services. The participating students will remain enrolled with their local school districts.

The annual revenue generated through this arrangement is projected to be \$2,000 per student, which will help offset the costs of operation for our district led K-5 virtual program. The contract has been approved by the Volusia County School Board, and we respectfully ask that it be added as an agenda item for our Board to consider.

### Detailed Curriculum Plan

#### **General information**

All students enrolled in the Pasco eSchool VIP program in grades K-5 will participate in their grade-level specific schedule, included in this document. All student schedules are subject to the approval of the District. The following represents the detailed curriculum plan for districts in the Virtual Instruction Program (VIP) for 2012-2013. Students performing above or below grade level may receive additional adjustments, subject to District approval as follows:

#### **Students performing below grade level K-5**

Students who are not performing at grade level will be placed in their appropriate grade-level courses but may receive additional content and instruction designed to address their deficiencies. Students who are not performing at grade level in math grades 3-5 may receive enhanced course content in math. The course codes will be the same as the standard course codes for these courses but the student's records will identify the supplemental instruction with the title "Verticy." Students who scored a level 1 or 2 on the FCAT Reading test will be placed in an Intensive Reading course using the Verticy curriculum. Health and Physical Education may also be waived for these students as necessary.

#### **Students performing above grade level K-5**

Students who are above grade level may receive enhanced course content in language arts, math, or science in grades 3 through 5. The course codes will be the same as the standard course codes for these subjects in grades 3-5 but the student's instruction will be differentiated to provide rigorous academic instruction to meet student needs. Students receiving this content will not qualify for any "gifted" designation within their resident district. Students who are well above grade level in math may receive a math course at one or more grade levels above their age-based grades with District approval.

In addition, students may be offered elective courses, with District approval. Further details about courses may be viewed on the Pasco eSchool website: <http://eschool.pasco.k12.fl.us>. All courses include detailed assessments to ensure student mastery of Florida requirements.

Pasco eSchool represents that to the best of its knowledge, all curriculum provided under this plan complies in all material respects to the Florida Next Generation Sunshine State Standards for each grade level and subject.
